

# SPOILERALERT

Food recovery platform that creates a B2B marketplace for donating and selling surplus food to non-profits

## 6 SIMPLE STEPS:

1. **Create** a profile
2. **Post and search** for food
3. **Confirm** interest
4. **Route** driver to the destination
5. **Exchange** food
6. **Document** the transaction

## BENEFITS:

- Increased access to agencies
- Greater sources of donations
- Reductions in hauling costs
- New revenue opportunities
- Improved tax documentation for donations

Currently being tested in Massachusetts  
Developed by graduate students at MIT and Harvard
